

TECHNICAL FIELD BULLETIN

Date January 2004
Subject NKL Edge Version Update
Issue By NKL Cash Handling - a member of FKI Security Group
Issue To Authorized Factory Service Personnel; Edge Plus Customers
Document 40101

OVERVIEW

The NKL Edge Plus and NKL Edge Service have been revised to enable extended communication time while working online. This applies to RS232, modem, and network communication. With this update, the software will maintain continuous communication with the safe when working online as long as the user clicks on any tab, button or "tree object" (name of a unit or component) within the Work Online dialog at least once every 60 seconds.

PRODUCTS AND SERIAL NUMBERS AFFECTED

NKL Edge Plus 3: NKLEdgePlus.exe updated to Version 3.0.3 (serial number not applicable).
NKL Edge Service 4: NKLEdgeService.exe updated to Version 4.0.1 (serial number not applicable).

ACTION REQUIRED

Current users of NKL Edge Plus and NKL Edge Service may request an update CD with latest executable file. When the user receives the update:

1. Close the NKL software, if running.
2. Insert the CD into the computer.
3. Copy the exe file on the CD into the c:\Program Files\NKLEdge directory (or alternate location, if appropriate). Allow the new file to overwrite the old file.
4. Start the NKL software application.
5. Select ABOUT from the HELP menu to verify the correct version number is running.

ADDITIONAL INFORMATION

If you have any questions or problems with the software contact NKL Technical Support at 1-800-452-4655. You can also check for more information about this update or any other product updates any time at www.fkitechinfo.com.
